STAINLESS STEEL ELECTRIC OVERHEAD METALHEATED INFRARED FOOD WARMER

Features

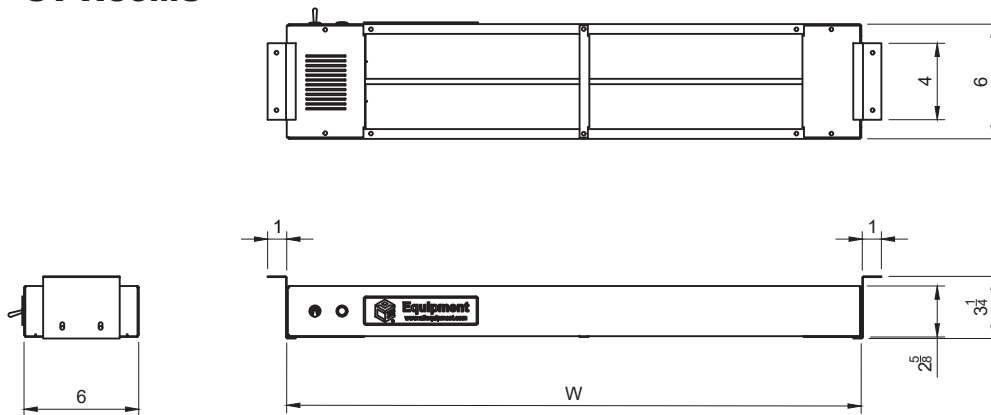

- Stainless steel construction
- Powerful metalheated infrared heating elements
- Holds food products at their maximum temperatures
- On/ Off toggle switch
- Easy to clean design

Description **Stainless Steel Electric Overhead Metalheated Infrared Food Warmer**

Keep your foods hot and ready to serve with the metalheated infrared food warmer! This warmer features heating power for outstanding warming potential, and its ceramic element design provides a large warming area for maximum utility. Metalheated elements offer an intense heat that's ideal for covering greater distances. It can be a great solution for problem areas where you're having trouble warming food that is farther away.
